

## Mayor's Select Internship Program

#### Internship Program Overview

The Mayor's Select Internship Program provides a unique opportunity for our best and brightest students. This program will cover a variety of tasks performed by local government including, but not limited to, policy research and development, press communications, constituent services, and administrative tasks.

The Mayor's Select Internship Program encompasses three major components:

**Department Rotations:** Each 16-week program will find interns placed in specific departments in four four-week rotations. All interns will have one rotation in the Mayor's Office (communications, government affairs, constituent service), plus three additional City departments. Interns will work on a range of projects and tasks including, but not limited to: conducting research, attending meetings, managing incoming inquiries, data analysis, drafting briefings, staffing events, outreach and special projects.

**Government Engagement:** Interns will have the opportunity to interact directly with City leaders at the highest levels through a weekly speaker series that will include presentations, facility tours and more.

**Community Service:** Interns will work as a group on the research, design, and implementation of a community service project that creates lasting impact to address community needs.

Our internship program runs year-round in three semesters (fall, spring, summer) and is limited to 5 participants.

### **Applicants**

Prospective interns shall be undergraduate students with a minimum GPA of 3.0.

Ideal candidates must communicate well, display a record of academic achievement, demonstrate a commitment to public service, and be able to work in a fast-paced environment. Candidates shall also maintain a high standard of ethics and integrity. Interns must have at least 10 hours per week available.

Prospective interns will be required to complete an application as well as an in-person interview.

#### Compensation/Credit:

Internships are unpaid, however, participating students will be eligible to earn college credit.
